4. Reviewed the case of [REDACTED] who had called [REDACTED] relative to the status of his pending application with the Agency. I learned that [REDACTED] was being processed for [REDACTED] until the recent cutback in that area necessitated cancellation of his action. Discussions with Personnel disclosed that [REDACTED] had not been discreet in his follow-up actions with the Agency and this was evidenced in his contacts with me. Because of his limited experience, it was evident that there were no opportunities for [REDACTED] in the DD/I area and action was taken to restore direct contact between [REDACTED] and [REDACTED] of Personnel. (I was notified later by Personnel that [REDACTED] had been advised that there was no opportunity for him in the Agency. [REDACTED] contacted me at my home to this effect and he indicated satisfaction with the treatment which had been afforded him by the Agency.)
